

Sitting and poses

Certain blocks and furniture items allow you to sit on them to aid relaxation. A range of other poses are also available.

Sitting

To sit, right click with an empty hand when you are **less than two blocks away** from a seating block. You may also use the `/sit` command to sit anywhere.

Seating blocks

Blocks

- Carpet
- Stairs
- Slabs
- Snow layers

Furniture

- Armchairs
- Chairs
- Stools

Lay

Use `/lay` to lay down right where you are.

Bellyflop

Use `/bellyflop` to bellyflop to the ground.

Spin

Use `/spin` to spin on the spot.

Crawl

Use `/crawl` along the ground. You may move while in this pose.

Standing up

You can stand up again by sneaking, just like getting off a horse. If you were sitting on a block, this will place you back where you were originally standing.
